

Subject: [ICAR2023] Call for Concurrent Sessions and Workshops!

Applications are now open for proposals to organise a concurrent session or workshop at ICAR2023. ICAR2023 will accommodate 15 concurrent sessions that will be 90-min long and 6 workshops that will be 60-min long. Each concurrent session should include a mixture of invited talks and short talks selected from submitted abstracts.

When selecting speakers, please consider

- 1) scientific novelty
- 2) geographic balance
- 3) ethnic diversity
- 4) gender balance
- 5) inclusion of early-mid career scientists

to maximize the representation of scientific excellence and diversity in our research community.

Please submit your application that includes

- 1) preference for concurrent session or workshop
- 2) name(s) of organiser(s)
- 3) title of the proposed session
- 4) description of the proposed session (maximum 200 words)
- 5) potential invited speakers,

by using the link (<https://forms.gle/r4T9c3SsFPUUnDZ97>) or sending an email to icar2023@issjp.com

Deadline: 15th of September, 2022

We encourage at least one of the organisers of each session/workshop to attend onsite. In case we receive more submissions than we can accommodate, the local organising committee will be responsible to select sessions/workshops in consultation with the members of Scientific Advisory Board.
